**FIG. 3**

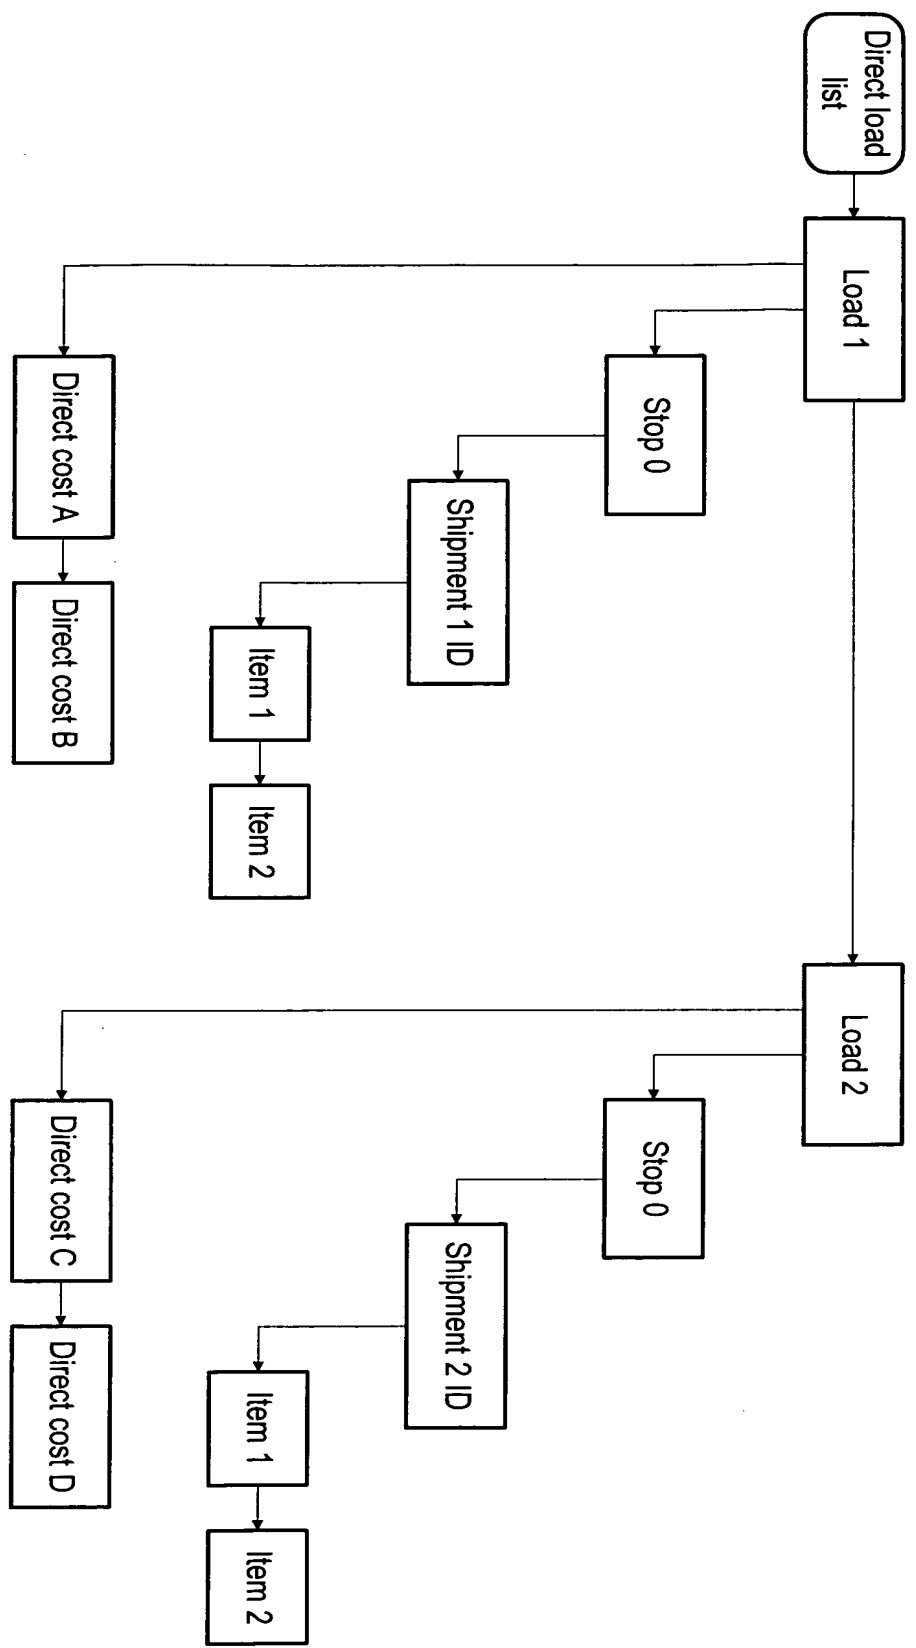

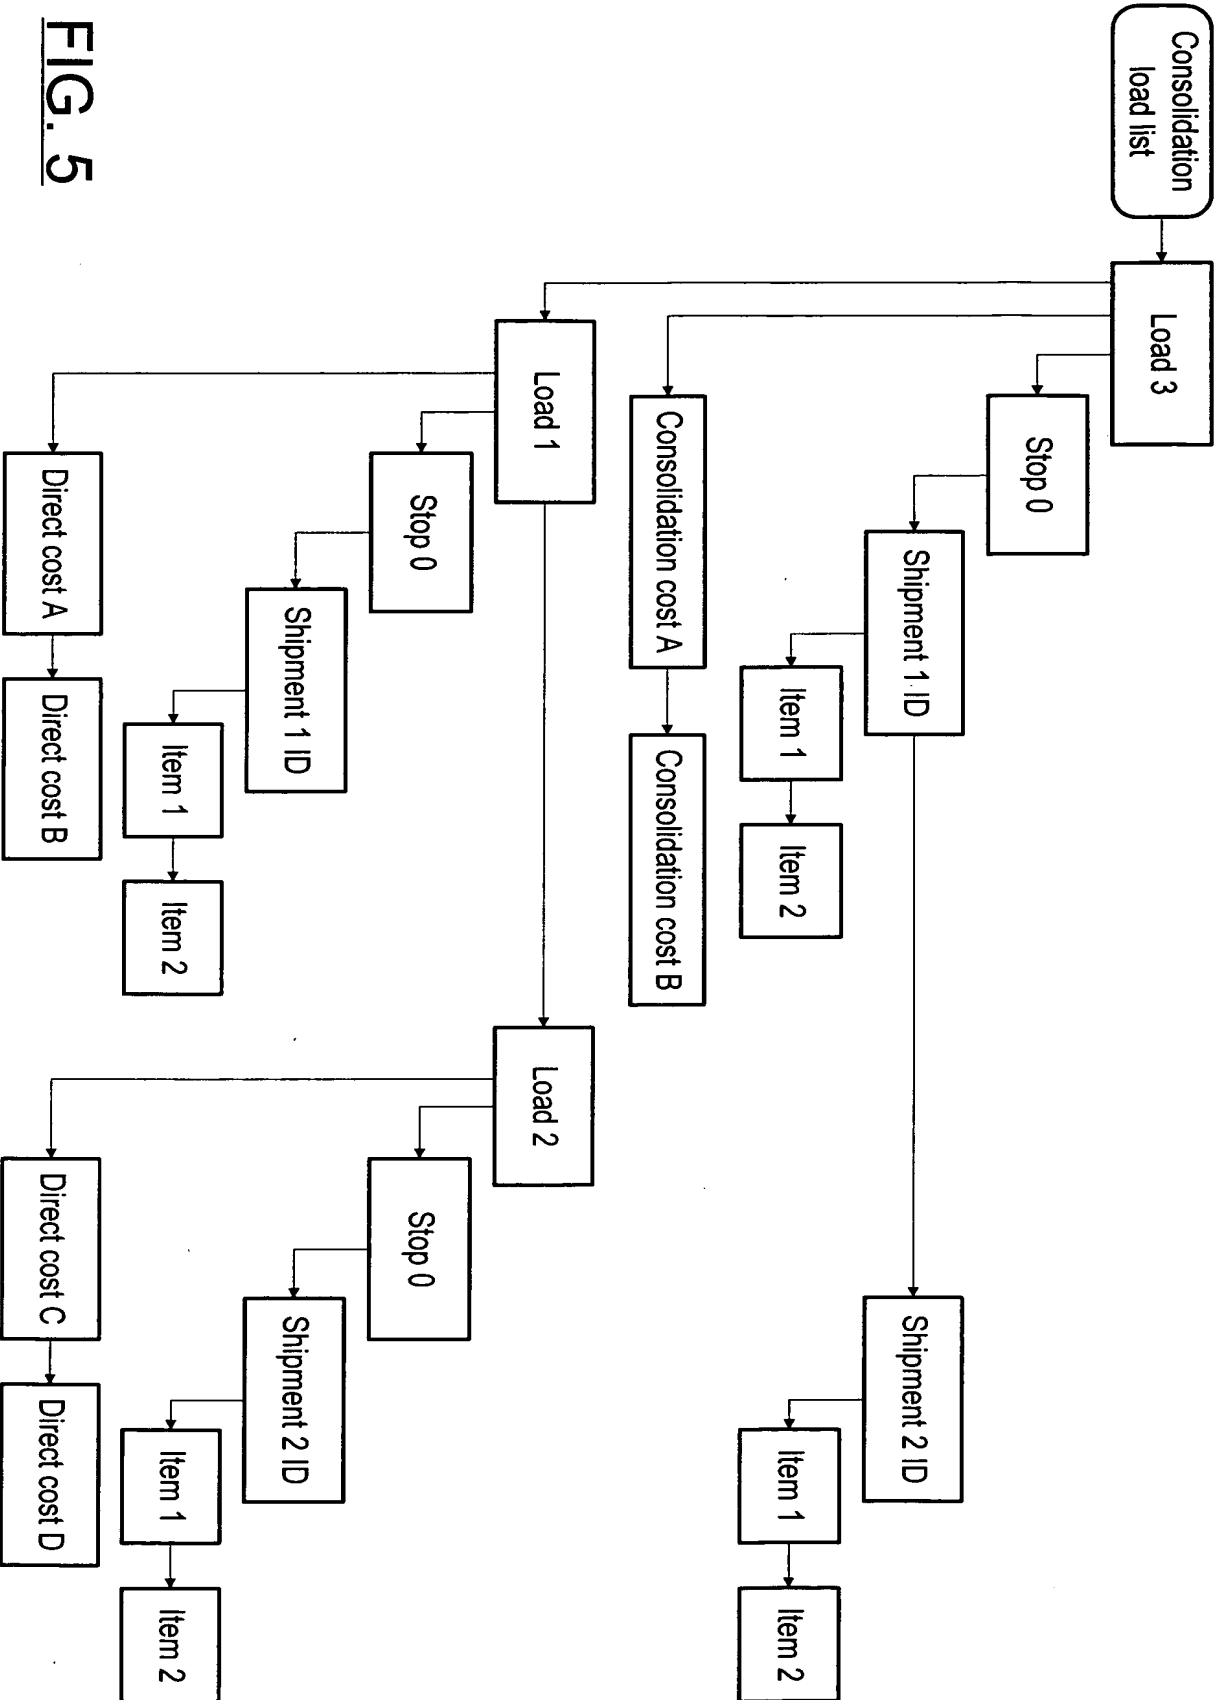

FIG. 4

FIG. 4 is a flowchart illustrating a process flow. The process starts with a "Direct load list" (rounded rectangle). This list branches into two main paths: "Load 1" and "Load 2" (rectangles). From "Load 1", the process can go to "Stop 0", "Shipment 1 ID", or a sequence of "Direct cost A" and "Direct cost B". From "Shipment 1 ID", the process goes to "Item 1" and then "Item 2". From "Load 2", the process can go to "Stop 0", "Shipment 2 ID", or a sequence of "Direct cost C" and "Direct cost D". From "Shipment 2 ID", the process goes to "Item 1" and then "Item 2".
